

# ACTIREVENGE

HIGH-POWERED METAL SURFACE CLEANER & RESTORER

**ActiveEco ActiRevenge** is a heavy-duty cleaner specifically formulated to remove tea staining, welding burns, oxidising, rust stains, mineral salt deposits, diesel fumes, and grease and corrosion common to stainless steel and other surfaces exposed to the elements.

It chemically brightens stainless steel or aluminium surfaces to a 'like new' state and is suited to most painted surfaces.

## BENEFITS

- Removes staining
- Removes corrosion
- Brightens finish

# ACTIREVENGE

## HIGH-POWERED METAL SURFACE CLEANER & RESTORER

### Recommended Applications

**ActiveEco ActiRevenge** is perfect for use by:

- Fabricators
- Commercial businesses
- Marine industries
- Commercial kitchens
- Internal and external structure cleaning
- Food storage
- Tanks
- Railings
- Balustrades
- Other metals

### Directions for Use

1. Use undiluted for stubborn stains or dilute 1 part of ActiveEco ActiRevenge with 15 parts water.
2. Apply solution with a brush or sponge. Work from the bottom to the top on vertical surfaces.
3. Allow 10-20 minutes reaction time.
4. Agitate stubborn deposits.
5. Rinse thoroughly with clean water.

**ActiveEco ActiRevenge** can be diluted to 1:100 for maintenance cleaning.

**CAUTION:** For professional use only. **ActiveEco ActiRevenge** is not to be handled by any person not trained in its safe and correct use. Read and understand the SDS before use.

This product is corrosive and appropriate care should be exercised including the use of suitable protective gloves, goggles, and protective clothing and warning signage.

Always pre-test in an inconspicuous location for sensitivity to chemicals.
